## FIRST AID BANDS

Dear Parents and Carers

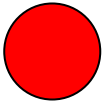

St Anthony's operate a wrist band system to monitor first aid procedures in school.

If your child comes home wearing a wrist band, it means they have received first aid at school and the colour of the wrist band signifies the level of injury.

If it is red, it will mean that your child has bumped their head and will have a bumped head letter in their bag. You will also receive a phone call from school.

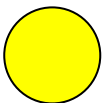

If it is yellow, they have had a minor injury such as a grazed knee and will have received first aid treatment, but it is deemed that a phone call home is not necessary.

### Bumped head

- Red wrist band
- Letter in the bag
- Phone call home

### Minor injury

- Yellow wrist band
- First Aid treatment received

If your child is wearing a wrist band, please speak to your child's class teacher for further details.

Thank you for your support

Mrs C P Fox
