---

4<sup>th</sup> January 2018

Dear Parents and Carers

### **Rainforest model project**

This half term the children in Year 4 will be learning all about rainforests. As part of the project, we would like the children to build a model of a rainforest which includes the different animals, trees and plants they would expect to find in such a habitat.

There are a number of ways the children can do this; the internet has many inspirational ideas, we recommend browsing 'rainforest models' via google images where there are lots of creative examples to choose from.

Parents and carers are of course encouraged to assist their children build a rainforest model, which should be brought into school on the morning of Friday 26<sup>th</sup> January 2018.

We will be awarding Science and Geography prizes for the most authentic and true to life models built., there will also be a prize for the model that shows the most artistic flair.

Thank you for your support and we're excited to see the finished models.

Yours faithfully

**The Year 4 team**
