

## Vocabulary Instruction

Although vocabulary development occurs naturally during the three types of reading lessons taught at St Anthony's, discrete component vocabulary instruction ensures that an understanding of important tier 2 words and root words is systematically developed.

All three types of reading lessons begin with a discrete 5 - 10 minute vocabulary focus, as highlighted in the above lesson structures for fluency reading, extended reading and close reading. The tier 2 section below contains a list of tier 2 words to focus on during daily KS2 vocabulary instruction and there is also a list of common Latin and Greek root words that pupils should learn. A subsequent section then sets out weekly vocabulary plans, systematically splitting these word lists into weekly blocks for Years 3-6.

### Weekly Vocabulary Instruction

Monday	Learning and exploring the weekly tier 2 vocabulary.
Tuesday	Learning and exploring the weekly root words and associated examples
Wednesday	Engaging in retrieval practice, focussing on tier 3 vocabulary from previous weeks.
Thursday	Engaging in retrieval practice, focussing on root words and associated vocabulary from previous weeks
Friday	Assess with a 'low stakes quiz day', testing the weekly content, including words and vocabulary retrieved from previous weeks.

*Let your words teach and your actions speak*

In addition to discrete daily vocabulary instruction (outlined above) that systematically focusses on tier 2 vocabulary and root words, ongoing encounters with challenging and unfamiliar vocabulary throughout the exploration of chosen text are also carefully planned for during fluency, closed and extended reading lessons.

Class teachers preview the reading material for the week and then determine the following:

- How difficult is this reading material to understand?
- What words are most important to understand the text?
- What words are unlikely to be part of a child's prior knowledge?
- What words lack helpful, directive contexts?
- What words appear repeatedly in the text?
- What words are interrelated, and help children know additional words?
- What words are frequently encountered in many subject disciplines?

### Tier 2 Vocabulary List

This is the focus list of 345 common and important tier 2 words that Key Stage 2 pupils should systematically learn during discrete vocabulary instruction.

This is then organised into useful weekly foci: abandon, abstract, absolutely, access, accompany, accurate, achieve, acquire, adaptation, advantage, affect, aid, alter, alternative, analysis, announce, annual, anticipate, appearance, appreciation, approach, appropriate, area, assessment, association, assume, assumption, atmosphere, attached, attained, attitudes, attract, audience, authority, automatic, available, aware, basic, benefit, bond, brief, budget, capable, category, cease, channel, circumstances, civil, clarity, code, collapse, combine, comment, commit, common, communication, community, compare, complex, component, conceived, concept, conclusion, condition, confirmed, confined, conflict, conscious, consequences, consider, consistent, constant, construction, contact, context, contract, contrast, contribution, control, controversial, converted, convinced, co-operation, core, couple, create, crucial, cultural, cycle, data, debate decline, definite, definition demonstrate, deny, design, despite, detect, develop, device, dimension, discrimination, display, distorted, distribute, diversity, document, dominant, draft, duration, dynamic, economy, efficient, eliminate, emerged, emphasis, enable, encounter, energy, enhanced, ensure, entire, environment, equipment, error, establish, estimate, ethical, evaluation, eventually, evidence, evolution, examine, example, exceed, exchange, excluded, exhibit, exist, expansion, experience, expert, exploitation, external, extract, factor, familiar, features, file, final, flexibility, focus, format, foundation, framework, frequent, furthermore, generated, global, goals, government, guarantee, hierarchy, highlighted, identical, identified, ignored, image, impact, imposed, incident, indicate, individual, inferred, influence, initial, innovation, input, insert, insight, instruction, intelligence, intensity, intention, interaction, internal, international, investigate, involved, isolated, issues, justification, label, layer, limit, link, literature, location, logic, maintain, major, market, maximum, media, medium, mental, method, migration, military, minimum, monitoring, motivation, national, necessary, negotiation, neutral, nevertheless, nonetheless, object, objective, obtained, obvious, occur, odd, option, organise, outcomes, overall, overcome, overseas, period, persistent, perspective, phase, phenomenon philosophy, physical, political, popular, positive, possession, potential, precise, predicted, previous, principle, prior, priority, procedure, process, prohibited, propose, prospect, public, published, pursue, quotation, random, reaction, recognise, recovery, refine, region, rejected, related, release, reluctant, removed, represent, required, research, reserve, resources, response, restore, retained, revealed, reverse, revision, revolution, rigid, role, route, schedule, scheme, section, security, select, sensitive, separate, sequence, series, severe, shift, signal, significant, similar, site, society, solely, source, specific,
